DATE: 3/12/70

FROM : SAC, WFO (100-47757)

SUBJECT: COINTELPRO - NEW LEFT

ReBulet 5/10/68.

Potential Counterintelligence Action

Potential for counterintelligence activities lies in the political differences which are prevalent in the groups which make up the New Left and in black-white separatism.

Through the use of sources and propaganda media, these differences can be accentuated and the breach which presently exists be widened.

Pending Counterintelligence Action

WFO has a pending counterintelligence program being considered by the Bureau designed to take advantage of current dissension within the Student Mobilization Committee (SMC). The program would consist of a letter to all campus SMC organizations pointing out the inequities of YSA control and domination of the SMC. The letter, preferably on SMC stationery, would be signed by [REDACTED] of the University of Maryland SMC who recently lost a close election to [REDACTED] (YSA-SWP) [REDACTED] of the SMC. [REDACTED] and other student members of the SMC considered the election "fixed" (no tally was taken) and have actively challenged YSA control of the SMC.

This program, if adopted, would widen the split between students and non-students (YSA members) within the SMC and will noticeably delay the SMC's projected Spring activities.

UNITED STATES GOVERNMENT

Memorandum

TO: DIRECTOR, FBI (100-449698)

FROM: SAC, SAN ANTONIO (100-10510) (P)

SUBJECT: COINTELPRO - NEW LEFT

DATE: 3/9/70

Re San Antonio letter to the Bureau, 12/10/69,
which was the three-month status letter regarding this
program as it pertained to the San Antonio Division.

The following is the current status of this program
in the San Antonio Division:

I. POTENTIAL COUNTERINTELLIGENCE ACTION:

By letter dated 12/8/69, San Antonio requested
Bureau authority to use San Antonio's Bureau-approved
pseudonym to write a letter to the Editor of the Daily Texan regarding a recent speech made by former Texas
Attorney General WAGGONER CARR in which Mr. CARR stated
that an official of the SDS was behind the Vietnam Moratorium
activities.

By letter dated 12/8/69, the Bureau denied authority
for this mailing.

By letter dated 2/12/70, Bureau authority was
requested to have the Mechanical Section make up several
cards captioned "Traitors Beware" and signed by the
"Minutemen" to be mailed to selected members and officers of
the San Antonio Committee for Peace and Freedom (SACPAF)
which group sponsors weekly demonstration at the Alamo in
San Antonio, Texas, protesting the U.S. intervention in Vietnam.
It was pointed out that such an operation could discredit
and disrupt both anti-war activities and the Minutemen
organization in the San Antonio area.

By letter dated 2/27/70, the Bureau denied this
request by San Antonio.

III. PENDING COUNTERINTELLIGENCE ACTION

By letter dated 2/25/70, San Antonio requested Bureau authority to obtain several copies of a paperback book published by U.S. News and World Report entitled "Communism and the New Left." San Antonio felt that this was excellent public source information printed by a non-Governmental agency which could be used as reference material by established sources particularly sources connected with institutions of learning.

Bureau approval is still pending with respect to this request.

By communication dated 3/2/70, Bureau authority was requested to use the post office box and the pseudonym approved by the Bureau in this program to mail a letter to the president of the American Bar Association and send copies of this letter to the two leading newspapers in San Antonio protesting the conduct of Attorneys WILLIAM KUNSTLER and LEONARD WEINGLASS during the Chicago conspiracy trial.

Bureau approval is still pending on this request.

III. TANGIBLE RESULTS

On 10/3/69,

[REDACTED] Austin Independent School District, Austin, TEXAS, advised that [REDACTED] (a Security Index subject of the San Antonio Division) is a teacher in the Head Start program under the auspices of the Austin Independent School District. [REDACTED] stated that the school district desires to terminate her services, but is unable to do so because of a lack of information from the Detroit public school system concerning her background.

Detroit was requested to furnish public source information to San Antonio and if suitable public source material is received, Bureau authority will be obtained to furnish this information to [REDACTED]

SA 100-10510

On 1/8/70, public source material was made available to [REDACTED] Intelligence Officer, Austin Police Department, Austin, Texas, who was to furnish this public source information to [REDACTED]

While this operation has been completed, it is not known what actual tangible results were accomplished.

IV. MISCELLANEOUS

San Antonio feels that this program is one of the most vital programs in the security field, and the Bureau can be assured that this program is receiving adequate attention.

DATE: 2/19/70

FROM: ~~WE~~ SAC, KNOXVILLE (100-3687) (P)

SUBJECT: COINTELPRO - NEW LEFT

Re Knoxville letter 10/28/69.

On 2/6/70

University of Tennessee (SSD, UT), Knoxville, Tennessee, advised that no Students for a Democratic Society (SDS) or other New Left organizations are active and organized on this campus at present.

He stated there are 30 to 50 hippie-type individuals, both students and non-students, who appeared to be causing all the discontent at UT as evidenced by the demonstration held 1/15/70, at which time campus police and Knoxville Police arrested 22 individuals with 13 being students.

He stated no organization or group, other than discontented students and other individuals, is active. This group is disorganized, and everyone wants to be a leader and no one wants to be a follower.

This demonstration involved a challenge by a non-student to meet the President-elect of UT, JOHN BOLING, in a hand-to-hand combat in front of the Administration Building 1/15/70; however, the President-elect did not show up. Due to a large number of people present, mostly spectators, the agitating group, numbering around 150-200, including sympathizers, were near the door of the Administration Building. UT officials and Knoxville Police Department officials pleaded with the group to disperse or face arrest for violation of state laws regarding disruption of school routine.

REC-64 1/11/70 - 91
The Knoxville Police Department and campus police were standing by in the basement of the Administration Building. A student suggested going into the Administration Building, at which time two individuals gained entry; however, they were arrested and the door locked. At this time campus police and Knoxville Police Department moved out, cleared the area, and arrested 22 students and non-students.

The State Attorney stated that, in his opinion, this trouble was instigated primarily by non-students and that he is going to do all in his power to deal with them harshly for violating state laws recently passed by the Tennessee Legislature regarding disruption on campuses of both students and non-students. The cases of those arrested are bound over to the Grand Jury under these new state laws.

[redacted] stated that during the school year 1968-1969, the SSOC, loosely organized at UT, tried to get campus police and the police department involved in a confrontation for publicity reasons; however, this never materialized. He stated that after the recent trouble died down rumors on the UT campus are that the campus police and Knoxville Police Department do not intend to be pushed around, and they are serious when they say force will be used if necessary to obey the laws. [redacted] stated he feels this demonstration was good in one way as it let the students, non-students and general public at large know that the police are not going to be derelict in their duties. News media reported that local county and state officials, including U. S. Senators and Congressmen, gave their approval to the action by the police and UT officials and that the individuals involved should be punished to the fullest extent of the law and that the same action should be taken at UT and elsewhere when trouble of this kind arises.

In December, 1969, two individuals visited the East Tennessee State University (ETSU) campus, Johnson City, Tennessee, who were connected with the Young Socialist Alliance (YSA) from Atlanta, Georgia, and were passing out YSA literature at the student center. College officials were notified of this, and these individuals were photographed, and, after photographs were obtained, they were told to immediately leave the campus and not to return.

In view of the above, the Knoxville Division at this time does not have any suggestion for counterintelligence action. Contact is being maintained with the SSD, UT, regarding

KX 100-3687

any organization that may become active, as well as at ETSU, and, if any information is received regarding possible counterintelligence activity, the Bureau will be advised, and Bureau authority will be obtained before instituting this program.

No Room for Slobs

By DR. K. ROSS TOOLE

I am 49 years old. It took me many years and considerable anguish to get where I am—which isn't much of anywhere except exurbia. I was nurtured in depression; I lost four years to war; I am invested with sweat; I have had one coronary; I am a "liberal," square and I am a professor. I am sick of the "younger generation," hippies, yippies, militants and nonsense.

I am a professor of history at the University of Montana, and I am supposed to have "liaison" with the young. Worse still, I am father of seven children. They range in age from seven to 23—and I am fed up with nonsense. I am tired of being blamed, blamed and contrite; I am tired of tolerance and the reaching out (which is always my function) for understanding. I am sick of the total irrationality of the campus "rebel," whose bearded visage, dirty hair, body odor and "tactics" are childish but brutal, naive but dangerous, and the essence of arrogant tyranny—the tyranny of spoiled brats.

I am terribly disturbed that I may be incubating more of the same. Our household is permissive, our approach to discipline is an apology and a retreat from

standards—usually accompanied by a gift in cash or kind.

IT'S TIME to call a halt; time to live in an adult world where we belong and time to put these people in their places. We owe the "younger generation" what all "older generations" have owed younger generations—love, protection to a point, and respect when they deserve it. We do not owe them our souls, our privacy, our whole lives, and above all, we do not owe them immunity from our mistakes, or their own.

Every generation makes mistakes, always has and always will. We have made our share. But my generation has made America the most affluent country on earth; it has tackled, head-on, a racial problem which no nation on earth in the history of mankind had dared to do. It has publicly declared war on poverty and it has gone to the moon; it has desegregated schools and abolished polio; it has presided over the beginning of what is probably the greatest social and economic revolution in man's history. It has begun these things, not finished them. It has declared itself, and com-

mited itself, and taxed itself, and damn near run itself into the ground in the cause of social justice and reform.

Its mistakes are fewer than my father's generation—or his father's, or his. Its greatest mistake is not Viet Nam; it is the abdication of its first responsibility, its pusillanimous capitulation to its youth, and its sick preoccupation with the problems, the mind, the psyche, the *raison d'être* of the young.

Since when have children ruled this country? By virtue of what right, by what accomplishment should thousands of teenagers, wet behind the ears and utterly without the benefit of having lived long enough to have either judgment or wisdom, become the sages of our time?

The psychologists, the educators and preachers say the young are rebelling against our archaic mores and morals, our materialistic approaches to life, our failures in diplomacy, our terrible ineptitude in racial matters, our narrowness as parents, our blindness to the root ills of society. Balderdash!

SOCIETY HANGS together by the stitching of many threads. No 18-year-old is simply the product of his 18 years: he is the product of 3,000 years of the development of mankind—and

"Too many 'youngsters'

ENCLOSURE

throughout those years, injustice has existed and been fought; rules have grown outmoded and been changed; doom has hung over men and been avoided; unjust wars have occurred; pain has been the cost of progress—and man has persevered.

As a professor and the father of seven, I have watched this new generation and concluded that most of them are fine. A minority are not—and the trouble is that minority threatens to tyrannize the majority and take over. I dislike that minority; I am aghast that the majority "takes" it and allows itself to be used. And I address myself to both the minority and the majority. I speak partly as a historian, partly as a father and partly as one fed up, middle-aged and angry member of the so-called "establishment"—which, by the way, is nothing but a euphemism for "society."

Common courtesy and a regard for the opinions of others is not merely a decoration on the pie crust of society, it is the heart of the pie. Too many "youngsters" are egocentric boors. They will not listen, they will only shout down. They will not discuss but, like four year olds, they throw rocks and shout.

ARROGANCE is obnoxious; it is also destructive. Society has classically ostracized arrogance without the hacking of demonstrable accomplishment. Why, then, do we tolerate arrogant slobs who occupy our homes, our administration buildings, our streets and parks, urinating on our beliefs and desiling our premises? It is not the police we need, (our generation and theirs) It is an expression of our disgust and disdain. Yet we do more than permit it, we dignify it with introspective flagellation. Somehow it is our fault. Balderdash again!

Sensitivity is not the property of the young, nor was it invented in 1950. The young of any generation have felt the same impulse to grow, to reach out, to touch stars, to live freely and to let the minds loose along unexplored corridors. Young men and young women have always stood

on the same hill and felt the same vague sense of restraint that separated them from the ultimate experience—the sudden and complete expansion of the mind, the final fulfillment. It is one of the oldest, sweetest and most bitter experiences of mankind.

Today's young people did not invent it; they do not own it. And what they seek to attain, all mankind has sought to attain throughout the ages. Shall we, therefore, approve the presumed attainment of it through heroin, speed, LSD and other drugs? And shall we, permissively, let them poison themselves simply because, as in most other respects, we feel vaguely guilty because we brought them into this world? Again, it is not police raids and tougher laws that we need; it is merely strength. The strength to explain, in our potty, middle-aged way, that what they seek, we sought; that it is somewhere but not here and sure as hell not in drugs; that, in the meanwhile, they will cease and desist the poison game. And this we must explain early and hard—and then police it ourselves.

SOCIETY, "THE ESTABLISHMENT," is not a foreign thing we seek to impose on the young. We know it is far from perfect. We did not make it; we have only sought to change it. The fact that we have only been minimally successful is the story of all generations—as it will be the story of the generation coming up. Yet we have worked a number of wonders. We have

changed it. We are deeply concerned about our failures; we have not solved the racial problem but we have faced it; we are terribly worried about the degradation of our environment, about injustices, inequities, the military-industrial complex and bureaucracy. But we have attacked these things. We have, all our lives, taken arms against our sea of troubles—and fought effectively. But we also have fought with a rational knowl-

edge of the strength of our adversary, and, above all, knowing that the war is one of attrition in which the "unconditional surrender" of the forces of evil is not about to occur. We win, if we win at all, slowly and painfully. That is the kind of war society has always fought—because man is what he is.

Knowing this, why do we listen subserviently to the violent tacticians of the new generation? Either they have total victory by Wednesday next or burn down our carefully built barricades in adolescent pique; either they win now or flee off to a commune and quit; either they solve all problems this week or join a wrecking crew of paranooids.

Youth has always been characterized by impatient idealism. If it were not, there would be no change. But impatient idealism does not extend to guns, fire bombs, riots, vicious arrogance, and instant gratification. That is not idealism; it is childish tyranny. The worst of it is that we (professors and faculties in particular) in a paroxysm of self-abnegation and apology, go along, abdicate, apologize as if we had personally created the ills of the world—and thus lend ourselves to chaos. We are the led, not the leaders. And we are fools.

AS A PROFESSOR I meet the activists and revolutionaries every day. They are inexcusably ignorant. If you want to make a revolution, do you not study the ways to do it? Of course not! Che Guevara becomes their hero. He failed; he died in the jungles of Bolivia with an army of six. His every move was a miscalculation and a mistake. Mao Tse Tung and Ho Chi Minh led revolutions based on a peasantry and an overwhelmingly ancient rural economy. They are the pattern-makers for the SDS and the student militants. I have yet to talk to an "activist" who has read Crane Branton's, "The Anatomy of Revolu-

tion," or who is familiar with the works of Jefferson, Washington, Paine, Adams or even Marx or Engels. And I have yet to talk to a student militant who has read about racism elsewhere and /or who understands, even primatively, the long and wonderous struggle of the NAACP and the genius of Martin Luther King—whose name they invariably take in vain.

An old and scarred member of the wars of organized labor in the U.S. in the 1930's recently remarked to me: "these 'radicals' couldn't organize well enough to produce a sensible platform let alone revolt their way out of a paper bag." But they can, because we let them destroy our universities, make our parks untenable, make a shambles of our streets, and insult our flag.

I assert that we are in trouble with this younger generation not because we have failed our country, not because of affluence or stupidity, not because we are antideluvian, not because

"I assert that we are in trouble with this younger generation . . . because we have failed to keep that generation in its place..."

we are middle-class materialists—but simply because we have failed to keep that generation in its place and we have failed to put them back there when they got out of it. We have the power; we do not have the will. We have the right, we have not exercised it.

TO THE EXTENT that we now rely on the police, mace, the National Guard, tear gas, steel fences and a wringing of hands, we will fail.

What we need is a reappraisal of our own middle-class selves, our worth and our hard-won progress. We need to use disdai, not mace; we need to reassess a weapon we came by the hard way, by travail and labor, firm authority as parents, teachers, businessmen, workers and politicians.

The vast majority of our children from one to 20 are fine kids. We need to back this majority with authority and with the firm conviction what we owe it to them and to ourselves. Enough of apology, enough of analysis, enough of our abdication of responsibility, enough of the denial of our own maturity and good sense.

The best place to start is at home. But, the most practical and effective place, right now, is our campuses. This does not mean a flood of angry edicts, a sudden clamp-down, a "new" policy. It simply means that facilities should stop playing chick-

en, that demonstrators should be met not with police but with expulsions. The power to expell (strangely unused) has been the legitimate recourse of universities since 1209.

More importantly it means that at freshman orientation, whatever form it takes, the administration should set forth the ground rules—not belligerently but forthrightly.

A university is the microcosm of society itself. It cannot function without rules for conduct. It cannot, as society cannot, legislate morals. It is dealing with young men and women, 18 to 22. But it can, and must, promulgate rules. It cannot function without order—and, therefore, who disrupts order must leave. It cannot permit students to determine when, what and where they shall be taught; it cannot permit the occupation of its premises, in violation both of the law and its regulations, by "militants."

THERE IS ROOM within the

university complex for basic student participation but there is no room for slobs, disruption and violence. The first obligation of the administration is to lay down the rules early, clearly and positively, and to attach to this statement the penalty for violation. It is profoundly simple—and the failure to state it—in advance—is the salient failure of university administrators in this age.

Expulsion is a dreaded verdict. The administration merely needs to make it clear, quite dispassionately, that expulsion is the inevitable consequence of

violation of the rules. Among the rules, even though it seems gratuitous, should be these: 1. Violence, armed or otherwise, the forceful occupation of buildings, the intimidation by covert or overt act of any student or faculty member or administrative personnel, the occupation of any university property, field, park, building, lot or other place, shall be cause for expulsion.

2. The disruption of any class, directly or indirectly, by voice or presence or the destruction of any university property, shall be cause for expulsion.

THIS IS NEITHER new nor revolutionary. It is merely the reassertion of an old, accepted and necessary right of the administration of any such institution. And the faculty should be informed, firmly, of this reassertion, before trouble starts. This does not constitute provocation. It is one of the oldest rights and necessities of the university community. The failure of university administrators to use it is one of the mysteries of our permissive age—and the blame must fall largely on faculties because they have consistently pressured administrators not to act.

Suppose the students refuse to recognize expulsions, suppose they march, riot, strike. The police? No. The matter, by prearrangement, publicly stated, should then pass to the courts. If buildings are occupied, the court enjoins the participating students. It has the awful power to declare them in contempt. If violence ensues, it is in violation of the court's order. Courts are not subject to fears, not part of the action. And what militant will shout obscenities in court with contempt hanging over his head?

Too simple? Not at all. Merely an old process which we seem to have forgotten. It is too direct for those who seek to employ Freudian analysis, too positive for "academic senates" who long for philosophical debate and too prosaic for those who seek orgastic self condemnation.

This is a country full of decent, worried people like myself. It is also a country full of people fed-up with nonsense. We need (those of us over 30) tax ridden, harried, confused, weary and beat-up, to reassert our hard won prerogatives. It is our country too. We have fought for it, bled for it; dreamed for it, and we love it. It is time to reclaim it.

While it is agreed that the proposed letter would be beneficial in driving a wedge between the Youth Against War and Fascism (YAWF) and the Students for a Democratic Society (SDS), it is not felt that the benefit that would accrue therefrom would justify the risk involved in having the letter distributed by Special Agent personnel. You should, therefore, consider other means by which you could distribute the letter anonymously on campus or to leaders of the above-mentioned groups.

The attention given this matter is appreciated and you should continue to consider means by which to disrupt the YAWF and the SDS in your area.

NOTE:

Buffalo has suggested preparing an anonymous mailing on YAWF letterhead ridiculing [REDACTED] and inferring that he may possibly be cooperating with police. [REDACTED] is a Security Index subject of the Buffalo Office who is an SDS member and who has shown a propensity for violence. A rift already exists between SDS and YAWF and Buffalo feels such a letter would widen the rift and might even neutralize [REDACTED]. Buffalo, however, suggests that the letter be distributed surreptitiously by Special Agent personnel on the campus of the State University of New York at Buffalo. Such a procedure is extremely dangerous and this procedure is not being approved.

ReBUlet, 1/23/70, and Bulet, 2/5/70.

In reference to Bulet of 2/5/70, Buffalo will have reproductions with the YAWF letterhead Xeroxed. It is to be noted the letter, as submitted to the Bureau with the YAWF letterhead, is the current type stationery used by YAWF. The number of copies to be distributed would be 500, and the distribution would be handled by SA personnel only. Because of the objective of this technique, and in consideration of the fact that Buffalo SDS activity originates at State University of New York at Buffalo (SUNYAB), it is believed for this action to be totally effective, the dissemination and distribution of the proposed literature should be in the vicinity of the SUNYAB campus of Buffalo. The focal point for student activities at SUNYAB is Norton Union. It is believed that Norton Union, because it houses various organizations and is the headquarters for "Spectrum," SUNYAB campus newspaper, should be the prime center for distribution.

Considerable attention has been afforded this matter, and a survey has been made to determine logical distribution sites, method of distribution, and time for distribution when detection, observation, and attention would not be a factor.

Buffalo will take no action in this matter pending Bureau approval.

2/19/70 re COINTELPRO - NEW LEFT

Enclosed for the Bureau are 28 photographs taken by Agents of the Boston Office of the abandoned Weatherman collective at 509 Franklin Street, Cambridge, Mass., on 2/17/70. Retel requested Bureau approval to furnish copies to [redacted] a free-lance lecturer and writer of extremist movements, for counterintelligence purposes.

This known collective was abandoned by the Weathermen as a result of the intensive investigation by the Boston Office culminating in eviction proceedings on 2/17/70. [redacted] invited Special Agents on the premises for the purpose of making the photographs.

Neighborhood sources indicate as many as twenty people were observed in this residence at any given time living in a communal fashion. The Bureau may desire to utilize these photographs in training conferences, etc. concerning the life style of the Weatherman faction of the SDS.

DATE: 2/4/70

Reference is made to New Orleans letter to Bureau dated 1/29/70, captioned "PROGRESSIVE LABOR PARTY (PLP), IS - PLP" and [REDACTED] aka, SM - PLP".

Enclosed for the Bureau are two copies of a suggested letter designed to force the PLP to take positive disciplinary against [REDACTED]

Enclosed for New Orleans is one Xerox copy of above letter and a stamped, addressed envelope containing a hand-written version of the letter.

Enclosures have been marked "Obscene" because of the contents of the letter which has been written in SDS jargon necessitating the use of a certain amount of profanity.

For the information of the Bureau [REDACTED] was severely criticized by PLP leadership for his refusal to leave New Orleans in the Spring of 1969 for further PLP training elsewhere. A source has advised that on 11/11/69 [REDACTED] and several members of SDS met [REDACTED] and joined his party [REDACTED] evening. Source advised that sometime later [REDACTED] and others decided that by their actions they had committed a grave error and had violated revolutionary principles. [REDACTED] expressed great concern that PLP leadership in New York would hear about the incident and discipline him.

REC-111 100-449698-11-1
Bureau authority is requested to mail anonymously the hand-written copy of enclosed letter to the PLP paper "Challenge" so that it will come to the attention of [REDACTED] and/or [REDACTED] immediately.

If Bureau authority is received, New Orleans is requested to seal letter and mail from a section of New Orleans near the waterfront.

Dear Editor:

I've been reading "Challenge" for many months now and enjoy your dynamic, forward fight against the U. S. imperialists. I firmly believe the workers and PL can gain the ultimate victory in the class war that's coming. I do my humping on the waterfront of this beautiful and corrupt city where the bosses do their thing too - sucking the life from the workers year after year.

There's a bit of shit among the dailies, however. Last summer I met [REDACTED] here and was somewhat impressed with his ideas. (I was splitting from SDS at the time). My good impressions of [REDACTED] dropped to zero in November when he and several SDSers met [REDACTED] at the New Orleans Airport and actually joined his party in touring the city behind a pig escort. The whole group stopped to eat at a luch pig joint - Brennan's - where they were served by black slaves, naturally. [REDACTED] and his crowd later gave their support to [REDACTED] phony statement to the press that the U.S. should withdraw its killers from Vietnam by the end of 1970 instead of right now!

I saw [REDACTED] myself that night acting for all the world like he enjoyed his ass kissing role. At first I thought he was high but decided that old [REDACTED] likes to wallow in the [REDACTED] brand of liberal bullshit.

In my humble opinion, [REDACTED] is fucking the movement royally every day he acts as PL's representative in the south. Since the [REDACTED] incident, [REDACTED] actions only have indicated he's as phony as the good [REDACTED]. I think your hot-shot organizer is going plastic. It's too bad. You and PL are missing a great chance to radicalize workers in this area through the actions of a fink traitor. Get rid of him.... In the meantime, keep up the good work in balling the ruling class.

Best wishes for the worker's future.

Enclosed for the Bureau are 4 copies of a letter (Obscene) prepared by the SL Division under captioned program.

BACKGROUND

[REDACTED] who has recently been recommended for inclusion on the SI, considers himself the leader of the Weatherman faction of SDS in the SL area. Reliable sources have advised that [REDACTED] has little support and there is no Weatherman organization or Weatherman meetings in the SL area. [REDACTED] did participate in the October 8-11, 1969 Weatherman demonstrations in Chicago, Ill., and was arrested 11/15/69, in Washington, D.C. during Moritorium activities, and advised SL sources that he attended the Weatherman National Council Meeting in Flint, Michigan, 12/69. On 12/16/69, [REDACTED] "debated" a member of the John Birch Society at a local SL community college during which "debate" [REDACTED] espoused the standard Weatherman philosophy of liberation through struggle.

[REDACTED] parents were interviewed during a ARL investigation re [REDACTED] at which time it was observed that [REDACTED] parents expressed liberal viewpoints and generally condoned their son's activities.

The ACTION Guerilla Force is the youthful arm of ACTION, a local Black Activist Group whose members engage in acts of civil disobedience and disruption.

The Guerilla members are expected to participate in vandalism and other acts of harrassment against firms which ACTION regards as "white racist institutions". Most ACTION Guerillas are sons of ACTION adult members and have juvenile criminal records.

RECOMMENDATION

SL proposes to mail the enclosed letter to [REDACTED] using commercial paper and envelope at his home which is also his parents residence [REDACTED]

It is anticipated this mailing would accomplish the following results:

1. Make [REDACTED] question further the possible "support" for the Weatherman in SL.
2. Allow [REDACTED] parents (who appeared to be very protective of their only son) to consider the possible results of [REDACTED] activities.

If [REDACTED] should contact ACTION re the letter the mailing would probably have the additional benefit of creating doubt and mistrust between ACTION -which would deny sending the letter but which could not be certain it was an act of an individual member, and any potential strength the Weatherman have in SL.

California National Guard, to reveal that he was in fact on duty in the Watts area of Los Angeles in 1965, and to accuse him of racism at a time when the black people needed him the most. If it is found that he was not in the California National Guard in August 1965 when the Watts riot occurred, he will still be accused of being a part of the military establishment. Continued efforts will be made to imply that [REDACTED] because of his past activities, is really an agent recruited from the ranks of the California National Guard.

It is known that [REDACTED] is a close associate of [REDACTED] (Bureau file 100-438321, San Francisco 100-50901, Los Angeles 100-62044), a Security Index subject of the San Francisco Office. San Francisco informant [REDACTED] advised on 12/23/69 that [REDACTED] is believed to be a government agent and that one [REDACTED] would investigate [REDACTED]. It is therefore planned to link [REDACTED] and [REDACTED] and to show that they are actually working as agents.

This program against [REDACTED] can be more effective if a photograph of [REDACTED] is obtained which identifies him as being affiliated with the California National Guard.

The Sacramento Office is requested to contact the California National Guard, 2415 First Avenue, Sacramento, California, ascertain when [REDACTED] was in the Guard, unit assigned, and if possible obtain an individual photograph or endeavor to determine where a unit photograph can be obtained. It is requested that it be determined if unit to which [REDACTED] was assigned was in the Watts area in August 1965.

A copy of this letter is being sent to San Francisco for their information.

No Counterintelligence Program will be taken until the entire program is formulated and then approved by the Bureau.

Re Minneapolis letter to Bureau 1/15/70.

Attached hereto is a copy of a sample letter to be mailed to [REDACTED] who has publicly challenged the University of Minnesota relative to permitting the use of public facilities to hold a recent Young Socialist Alliance (YSA) National Conference at the University of Minnesota. It is recommended this letter be mailed anonymously from the post-office at the University of Minnesota, the purpose being that [REDACTED] may possibly apply pressure to Left Wing Students within the Union Board of Governors who have been bringing radical speakers and programs to the University of Minnesota at taxpayers' expense. For background to this situation, see referenced letter.

It might further be noted that referenced letter also referred to four students who currently have brought a suit against the Minnesota Human Rights Department charging their rights had been violated when ejected from the YSA conference during December, 1969. The Bureau's advice is sought as to the advisability of mailing a similar letter to each of these four individuals with a slight change in the wording of the attached letter.

It is felt, however, that possible reactions by [REDACTED] may be more effective in view of his position and influence and previous publicity. It is therefore being merely recommended at this time that the attached letter be sent to him.

Dear Mr. [REDACTED]

It is high time someone like you came along to challenge these Left Wingers at this university about bringing in revolutionaries to show us how to destroy this country. This type of thing, I presume you know, is nothing new. The recent YSA convention just happened to be more highly publicized.

For your information, during last November, a group of Left Wing students on the Union Board of Governors at this school decided to use tax money to bring in [REDACTED] as a feature speaker. By the way, at the time he was under trial, being one of the "Chicago Eight". This can be verified through the November 19 issue of "The Minnesota Daily". I suspect a good hunk of the taxpayers' dough was used to get him here. Maybe if the students here were really interested in these clowns, you could justify spending the taxpayers' money. The truth of the matter is that less than 30 students showed up to hear [REDACTED]. Just another example of how the radicals are manipulating behind the scene at the taxpayers' expense.

It is also aware there are some individuals in the SDS and some potential members of the SDS of Jewish background.

The Bureau through its liaison with responsible Jewish leaders in the fields of religion, politics, economics and the Fourth Estate may wish to bring to the attention of these individuals the attitude of the Weatherman faction and suggest that a nationwide educational program be undertaken by the Jewish community to point out the evil nature of the politics of the SDS.

It is WFO's opinion that if this is undertaken by the Jewish community it would have devastating effects on the SDS.

FROM: SAC, SEATTLE (100-29237) (P*)

SUBJECT: COINTELPRO - NEW LEFT

Re Seattle letter to Director, 10/14/69.

I. POTENTIAL COUNTERINTELLIGENCE ACTION

Following the departure of [REDACTED] (Key Activist), SDS leader from the Seattle area, in October, 1969, SDS membership was broken up into two different groups. One group, primarily oriented to the University of Washington campus, followed the RYM II line, while the other followed the more violent strategies of the "Weathermen" faction. The "Weathermen" faction currently operates under the leadership of [REDACTED] who apparently does not have the leadership abilities of [REDACTED]. The "Weathermen" group continues to exercise control of the duplicating machines and office equipment which was formerly available to SDS members when it was operating as a campus group.

Within the past month, SDS has been barred as an "on campus" organization and some members of the "Weathermen" faction have joined [REDACTED] in organizing a new group operating exclusively at Seattle Community College.

The break-up of SDS members into these three distinct groups has had a tendency to weaken all three factions. Informants report that the best potential target for counterintelligence action would probably be the "Weathermen" group under [REDACTED]. This group, consisting of some 20 members or followers, recently attended the "Weathermen" National Conference in Flint, Michigan, and only returned on January 5, 1970. Excellent coverage is afforded by [REDACTED] and as soon as the group meets to determine future action immediate consideration will be given as to the

SUBJECT:

COINTELPRO - NEW LEFT

Re Bureau letter to Albany, 5/10/68, and San Francisco letter to Bureau, 10/8/69.

I. POTENTIAL COUNTERINTELLIGENCE ACTION

Considerable publicity has generally resulted in planned demonstrations attracting countless thousands of New Left activists and their followers, many of whom are drug oriented. Recently in one community considerable advance publicity was given in the news media to the effect the local authorities were going to thoroughly and completely police a forthcoming affair and especially be on the lookout for and arrest those openly violating marijuana and other drug laws. As a result, attendance was far below expectations. Similar action on the part of police departments all over the country could do much to dampen the enthusiasm of many of these participants. The FBI Law Enforcement Bulletin would be an ideal vehicle to publicize such a program.

II. PENDING COUNTERINTELLIGENCE ACTION

A. San Francisco airtel, 11/6/69, and Bureau airtel, 11/10/69, authorized anonymous letters to 17 individuals and organizations in connection with the November 15, 1969, nationwide march and moratorium.

B. San Francisco airtel and LHM, 12/12/69, concerned New Left writer and anarchist [REDACTED] whose activities are funded by the United Presbyterian Church. It was suggested that possibly the Church would consider discontinuing their support.

None.

2. Pending Counterintelligence Action

Bureau approval has been obtained to employ a counterintelligence tactic against [REDACTED] instructors at the University of Wisconsin, Milwaukee, Wis., (UWM), as set forth in referenced letter. This tactic is being held in abeyance, due to the fact that the [REDACTED] have not been active in any New Left issue at the present time. The tactic will be utilized at such time that the GIBSONS do participate in some New Left activity.

3. Tangible Results

As set forth in referenced letter, [REDACTED] b2 who attended Black Panther Party (BPP) meetings in Milwaukee, Wis., as well as acting as an instructor at BPP political education classes, was able to cause discontent within the BPP by pointing out how Students for a Democratic Society (SDS), as well as white middle-class students, were using the BPP to benefit their own movement and not for the benefit of the black people. It is felt that this tactic had some effect upon the BPP in Milwaukee, since the organization became very disorganized and at the present time is defunct.

[REDACTED]

Attached hereto are editorial broadcasts issued by CARL ZIMMERMANN.

[REDACTED]

In regard to the broadcast dated 10/2/69, it is noted that the revolutionary referred to by ZIMMERMANN is an individual from Chicago, Ill., who was arrested in Milwaukee, Wis., shortly before 10/2/69 at a demonstration at Washington High School.

[REDACTED]

The 10/21/69 broadcast of ZIMMERMANN's is based upon a leaflet distributed at Milwaukee high schools and printed by the Youth Against War and Fascism (YAWF), which made certain demands upon the high school administration, as set forth in the broadcast.

[REDACTED]

The 11/14/69 editorial refers to a pamphlet distributed on the University of Wisconsin (UW), Madison, Wis., campus, published by the Students for a Democratic Society (SDS) at UW, Milwaukee, Wis.

[REDACTED]

The 12/19/69 broadcast by ZIMMERMANN refers to a leaflet published by the YAWF in Milwaukee, Wis., and distributed at various localities in the Milwaukee area, including the Jewish Community Center. The distributions and demonstrations in connection therewith were purportedly in support of the War Moratorium; however, the leaflet was in protest of the "murder of Panther leaders." ZIMMERMANN was able to point out that this leaflet had no place in the Vietnam War Moratorium movement. He was also able to

MI 100-15657

point out that the entire incident involving the shooting of
two Black Panthers in Chicago was under investigation and
that no prior judgement should be made on the case by
anyone.

OUTSIDERS FOMENTING TROUBLE IN OUR HIGH SCHOOLS - A SERIOUS THREAT TO OUR YOUNG PEOPLE!

FILM:

- Demonstration
at Riverside
High School

There's turmoil in our high schools...and our students should know they're being used again. Self-appointed revolutionaries are moving in from Chicago and New York to force rebellion. It's true that some local rebels joined them, but, by and large, the trouble is fomented and led by outsiders.

**Camera on
Zimmermann:**

And, they're trying to inflame our local students with the same old issues: race, Vietnam, school discipline, etc. Don't get us wrong. We respect the right of our students to dissent, to disagree, to peacefully protest unfair and unjust treatment. We admire their concern. But, these outsiders and those few local hoodlums who climb on their bandwagon are interested only in making trouble.

Some school officials and some police officers have identified them as members of S.D.S....Students for a Democratic Society. The old tactics were present again. The "way out" leaflets putting down the establishment...the four letter words...inserted for shock effect...the calls for "rapping" about the big bad police and school administrators. Their pattern is tired, worn-out and ineffective. Fortunately most local students sort out these people very well...and reject them. We urge more of them to do the same.

TV6 asks this of our local high school students: Don't let yourself be "used". Don't be a sucker for these phony...outside revolutionaries. They are "hell-bent" for trouble and care nothing about you or your school or your future. Work with your school officials...your parents...and your student friends, who are anxious about you...your education...and your future welfare. #*

A "VIETNAM MORATORIUM" OBSERVANCE CAN BE EFFECTIVE WITH A "MORATORIUM" ON VIOLENT DEMONSTRATIONS!

**Camera on
 Zimmermann:**

The events that will occur on this coming Wednesday, October 15, 1969, will probably find a place in our history. Nation-wide...students, politicians, businessmen, professional people, factory and office workers have been urged to protest...to plead for an early peace in Vietnam.

This "Vietnam moratorium" will include many planned events ...and, no doubt, many unplanned activities will occur. The majority of our people want the war ended as soon as possible and want to convey this message to government officials. How they express their desire for peace, will decide how this day of "Vietnam moratorium" will be written in our history. It can be an inspiring chapter of how our citizens have the freedom to express their desires through peaceful methods...or, it can be a shameful chapter giving examples of needless, senseless violence.

**FILM:
 students**

Our universities...the U.W. in Madison...U.W.M. and Marquette here in Milwaukee...plan to conduct regular classes on Wednesday. There will be class discussions about the war, with students giving their views about Vietnam. This is fine. Vietnam is current history and should be discussed. However, there are dissident groups who insist the universities should be shut down. And, if they're not shut down, they say, they'll boycott classes. Some threaten violent actions. They are either not thinking clearly...or represent that handful of troublemakers who have more interest in disruption...than in seeking peace. The rallies, the speeches, the marches, the religious services can be held effectively...without disruption.

TV6 believes our people...young and old...in all walks of life...have every right to set aside this one day to stress their desire for an early end to the war. But, they can make their protest of the war's violence far more persuasive through peaceful methods. If it is a moratorium on the violence of the Vietnam war they desire...then let them also declare a moratorium on violent protest. To do anything else would defeat their purpose. ###

SENSIBLE STUDENTS ARE REJECTING OUTSIDE AGITATORS!

Camera on
Zimmermann:

We've often said on these editorials that our young people today are more alert, better educated, better informed than any generation in our history. And, that is why we're confident most of them will reject the impractical, nonsensical, completely useless demands of some rebel organizations in their high schools.

(Show Pamphlet)

Outside revolutionaries are trying to incite trouble by shouting student rights and freedom. They're distributing leaflets at Milwaukee high schools making demands with an "or else" approach. Here are some of the things they're demanding: "Complete freedom in being able to take the subjects you think you will need for your future!..Pledge of Allegiance by choice!..free education and free books!..optional study hall periods where students may leave the building or participate in special interest groups!..choice lunches!..stop detentions!..smoking in school!..pep rallies during school time!..and, get this one: "Days off from school during the week."

Most students know these demands are senseless. But, it only takes a few to cause trouble. And, unfortunately, it's easy to find those few and get them to rebel. Those outsiders zero in on this minority...and the disruption occurs.

Camera on
Zimmermann:

TV6 believes we need to have more and more participation by students in the day-to-day operations in our schools. That participation, however, should involve improving the students' chances for a better, broader education...not useless demands that only give the kids a better chance to "goof off".

To the students we say: Sound, sensible changes can only come about by working with the people who take an interest in you as an individual...your fellow students, your teachers and school administrators and, of course, your parents. Don't be one of the sheep...pushed around and used by outside agitators...who won't even be around when the trouble is done. #*

S.D.S. IS FAILING. THINKING STUDENTS ARE REJECTING THEM!

FILM: This was the scene at U.W.M. on Wednesday, when nine persons were arrested Disturbance at five students, three non-students and one associate professor. They storm U.W.M. the office of the R.O.T.C. in Mitchell Hall. The radical group scuffled with R.O.T.C. personnel and police...ripped a telephone from the wall...and turned over some of the furniture.

Camera on Like other disturbances inspired and led by S.D.S., Students for a Democratic Society...this one, too, was senseless and pointless.

(show pamphlet) We feel it important that you know the kind of clap-trap S.D.S. distribute around the campus. This pamphlet is typical: "R.O.T.C. exists as an important part of an imperialist army...used to put down the liberation struggle of the Vietnamese, led by the Vietcong and the provisional revolutionary government, but also other people of Africa, Asia and Latin America, as well as the struggles for self-determination of the black and brown colonies in the U.S. Smash R.O.T.C!... they say. That is their idiotic indictment of the U.S. Army. All these outbursts are to shock others into drastic action against the "establishment". But, it's not effective. S.D.S. is failing...failing miserably.

Camera on TV6 is confident that we have enough thinking, discerning, intelligent Zimmermann: young people around to quickly and surely sort out S.D.S. for what it really is. Most of our students are concerned about the problems in society...and are anxious to do something about them. They know that S.D.S. is not the answer. S.D.S. doesn't solve problems. It makes problems. Most of the students know that S.D.S....by its lawless, destructive, contrived actions...by its obvious distortion of truth...by its childish name-calling, destroys, not the system, but itself. ###

PEACEFUL PROTEST - FINE! BUT KEEP OUT THE IRRESPONSIBLE RADICALS!

- Camera on Zimmermann:

We have no quarrel with those people in our society who demonstrate for peace. The war moratoriums that have been conducted here in Milwaukee have been peaceful and within the law. And, it would be contrary to American principles to deny any of our citizenry such right of dissent.

PICTURE:
Show
Pamphlet

However, there are individuals within the war moratorium movement that refuse to stay on the subject. They should be denounced soundly and decisively by those demonstrators who realize that only relevant, peaceful protest can be effective. This pamphlet was distributed at a war moratorium rally last week at the Jewish Community Center. As you can readily see it accuses Chicago Police of committing the murder of two Black Panther leaders. This is an incident that is now under investigation by local authorities in Chicago...and the U.S. Justice Department. Nothing has been clearly determined. To insist, at this point, that the police are murderers is without basis of fact...and is clearly irresponsible.

Camera on Zimmermann:

And, the point we'd like to make here, the "police-panther shoot-out" has absolutely nothing to do with the Vietnam War Moratorium. Those who came to the moratorium rally to sincerely protest U.S. involvement in Vietnam should resent such attempts at exploitation. Likewise, war dissenters should resent and denounce those who use the rallies to shout about the "war against Black America"...or, to call for new life to the "proletarian revolution".

TV6 respects sincere, genuine, peaceful protest...and will defend those who choose this manner to register their views. The majority of Vietnam War Moratorium demonstrators have insisted right along that their protests be peaceful. They should also insist...and make absolutely sure...that all those who take part in these demonstrations are not using a captured audience to sell their radical propaganda. It is the only way they can be true to themselves and to the people they're trying to impress. #*

I. POTENTIAL COUNTERINTELLIGENCE ACTION

On 12/11/69, [REDACTED] advised that the Peace and Freedom Associations (PFA), a coalition of the various groups at Tucson, Arizona, publicly opposed to the Vietnam war, planned no Moratorium march or other activity during 12/69. The source related that [REDACTED] President of the PFA, [REDACTED] together with a small group of other PFA leaders, had dominated the 11/69 Moratorium activities in Tucson, and were responsible for bringing in two Black Panther Party (BPP) representatives to speak during the November activities. This November observance in Tucson was considered a failure by most because of a poor turnout. The PFA's sponsorship of the BPP speakers was blamed by students at the University of Arizona (UA), Tucson, for this failure; and these students and others connected with the peace movement in that locality were consequently most annoyed with [REDACTED] and her immediate associates.

The Phoenix Office is exploring ways to widen the breach between the [REDACTED] clique and the other "peace" activists in the Tucson area. Any recommendation for specific counterintelligence action in this regard will be submitted to the Bureau by separate letter.

II. PENDING COUNTERINTELLIGENCE ACTION

As authorized, copies of the two Bureau-authored studies concerning Students for a Democratic Society (SDS) dated 6/4/69 and 7/24/69 respectively, have now been made available to [REDACTED] at Arizona State University (ASU).

Re Bureau letter to Albany, 5/10/68,
and Omaha letter to Bureau, 10/2/69.

The Students for a Democratic Society (SDS) is the only New Left organization under investigation in the Omaha Division at the present time. The six chapters located in Iowa and Nebraska have deteriorated to a point where they have been almost totally inactive since the start of the current school year. The groups have become issue oriented groups that take up national issues, such as the Vietnam Moratorium Committee, on a very temporary basis and are otherwise so loosely organized that they are almost ineffective.

All established sources have been alerted to furnish all information they obtain concerning the plans of the SDS; however, all sources have advised in the last few months that there is practically no guidance or direction to this group. There have been no violent demonstrations on campuses in the Omaha Division since the start of the current school year.

Omaha will remain alert to any pertinent opportunities presented to neutralize the activities of New Left individuals.

At present, the Alexandria Division has no pending counterintelligence action or tangible results to report. The leading New Left activist within the Alexandria Division is [REDACTED] at George Mason College, Fairfax, Virginia. received from the National Aeronautics Space Administration (NASA) under Contract NGR-34-003-040 in amount of \$293,000. The director of this program at UNC is Dr. R. G. FAUST, Physiology Dept., School of Medicine.

In view of subject's activist background and his being currently paid tax exempt Federal funds, the Bureau is requested to disseminate copies of referenced reports to NASA in the hope his employment and source of funds can be terminated. This is also being requested as part of the Charlotte Office Counterintelligence Program, Disruption of New Left (Cointelpro), and it would be of interest to the Charlotte Office, in connection with this program, to know what action, if any, NASA may take on the basis of such information.

It is also suggested that the Bureau consider making it standard investigative procedure in security cases involving subjects connected with institutions of learning to determine whether subject has any scholarship, grant, loan, or employment being paid for with Federal funds. Disclosure of this information and dissemination to interested agencies would not only materially help to disrupt the New Left, but it would also prevent an ironic situation from continuing wherein the Federal Government is subsidizing persons who are not supporting that government.

No information has been received subsequent to the submission of referenced report, 6/27/69, which would change the analysis of instant investigation, as set forth in that report. Consequently, subject is not being recommended at this time for inclusion in the Security Index. However, his activities will be followed through informants and sources.

In view of the above and inasmuch as non-prosecutive summary reports have been submitted, this matter is being closed.

TO : DIRECTOR, FBI (100-449698)

DATE: 12/30/69

FROM : SAC, NEW YORK (100-163303) (F)

SUBJECT: COINTELPRO - NEW LEFT

Reference is made to New York letter dated 9/30/69.

1. Potential Counterintelligence Action

New York is preparing a leaflet designed to cause disruption in the ranks of the New Mobilization Committee To End The War In Vietnam (NMC) by attacking the attempts of the Socialist Workers Party (SWP) to influence or take over control of that organization.

Above leaflet will be submitted to the Bureau for approval when the layout is completed.

2. Pending Counterintelligence Action

By letter dated 10/8/69, Bureau authority was received for New York to prepare and mail anonymously a leaflet entitled "Get In The Picture" designed to widen the factional split between the Students For A Democratic Society (SDS) and the Progressive Labor Party (PLP). It was also designed to strain relations between these groups and the Black Panther Party (BPP).

During the period 10/15-21/69, the above leaflet was mailed to 280 individuals and organizations active in the New Left movement.

By letter dated 10/15/69, Bureau authority was received for New York to prepare and mail anonymously a leaflet entitled "Give Them Bananas" which was designed to widen the rift between the NMC and the Black United Front (BUF) in Washington, D. C., prior to the planned demonstrations in that city on 11/15/69.

During the period 10/24/69 through 11/14/69, 75 copies of the leaflet "Give Them Bananas" were mailed to selected individuals and organizations in the New York area.

By letter dated 10/24/69, the NYO furnished the WFO with 50 copies of the above leaflet for anonymous mailing in that area.

By letter dated 12/1/69, Bureau authority was received for [redacted] to prepare and mail anonymously a letter to [redacted] Staff Member, SMC, designed to cast suspicion at the Liberation News Service (LNS) as being a possible FBI "front". b7C

Above letter was mailed 12/2/69.

3. Tangible Results

On 10/16/69, [redacted] advised that copies of a leaflet captioned "Get In The Picture" had been received by various people active in the New Left in the New York area. It was generally believed in these circles that the leaflet was the work of The Crazies. This opinion was based on the picture of two copulating rats which appeared on the leaflet

On 10/30/69, [redacted] stated a recent leaflet, featuring two rats and entitled "Get in The Picture", was believed to be the work of PLP elements at the City College of The City of New York (CCNY). Informant reported the leaflet had been described as "PLP campaign literature" by individuals in the New Left movement.

No other tangible results were noted during the period subsequent to 9/30/69.

NOTE:

By relet, Newark suggested that an anonymous letter be prepared ostensibly from an SDS member and directed to an official of the Jersey City chapter of the BPP. The letter would suggest that the SDS member was stopping his contributions to the Panthers because he feared one of the Panthers was a police informant. This is being authorized as it may serve to drive a wedge between the SDS and the Black Panthers.

The clipping submitted as an enclosure indicates that Carr has publicly stated that the Vietnam moratoriums were planned in Cuba by Students for a Democratic Society (SDS). This is erroneous and for this reason it is not felt that the box and pseudonym previously authorized for this Program should be used in support of the statement by Carr since it will detract from the credibility of future statements issued over the name of the pseudonym.

By relet, San Antonio recommended a letter be sent to the editor of "The Daily Texan," the University of Texas, Austin, Texas, official newspaper, which would support a statement by former Texas Attorney General Carr who stated that the moratoriums on the Vietnam war were planned in Cuba by Bernardine Dohrn, an official of SDS. This information is erroneous and could only detract from the use of this box in this Program. It is to be noted that we have previously authorized San Antonio the use of the pseudonym and the box in the captioned Program.

organization. This information has been set out in detail in the several reports submitted under the SSOC caption. Information was set out within the body of the individual reports, marked "Finances," and it is noted that information was also contained in report of [REDACTED] at Memphis dated 3/28/69 on cover pages F through I.

Information regarding SSOC financial activities has also been included, in somewhat less detail, in the various reports submitted by the Memphis Office under the New Left Movement caption, Memphis file 100-4657.

It is noted that SSOC had made claim as an exempt organization within the meaning of Section 501(c)(3) of the U. S. Internal Revenue Code of 1954, and as a result received the benefits afforded such an organization, including a tax-exempt status both for the SSOC organization itself and the persons who made contributions to the SSOC organization, who were also able to make exemption claims based on their contributions to SSOC. The organization also received the privilege of sending mail at reduced rates as a result of its "non-profit" status. Information regarding the interest of the Post Office Department and Internal Revenue Service (IRS) relative to the SSOC organization was contained in Memphis letter to Bureau 6/27/69 under the SSOC caption.

Memphis received, in addition to the information set out in mentioned letter, the following:

[REDACTED]

If IRS should, in fact, decide to deny SSOC's claim as a tax exempt organization, this would not only have an adverse effect on SSOC itself but on the persons

卷之三

or commercial rates, and some depreciation up to 1950, since they could not have been built before 1940 as deductible items, and the government would have to make some kind of adjustments on that basis. In any case, the denial would also affect people's regular savings and it was likely that SSI would have to be brought down to a reasonable amount of money. This would be true of all forms of saving, particularly at a personal level.

Mr. [REDACTED] 103 in particular as to whether or not the government was going to attempt to recover any money from the past contributions to the CCC organization who had submitted to making their contributions, claimed these contributions as deductible items.

As previously reported, one of the factors which made SAMA vulnerable to attack three yrs ago and which ultimately contributed to the dissolution of the organization was the organizational dependence on Liberal Foundation money, which SAMA attempted to be eliminated.

It is noted that the 1976 financial budget increased as the operation of that organization continued, and it was at the vicinity of \$60,000 per year at the time of its dissolution.

It may well be that it had in the past been "guilted" at getting money from similar sources, as \$800 has been claimed.

The Secretary of State is taking action on this previously reported order, and again I emphasize as there may well be some counterintelligence potential in this regard. It is not known by the Defense Office just how

vigorously either the Court anticipated or IRS intends to pursue their efforts to recover any monies owed by the SSOC organization and, if so, during the year ended or attempt to audit the organization's financial activities for the years previous to 1967, or for the 1968 tax year, for which appropriate tax returns have yet been filed. Memphis is likewise unaware of what plans have been made to recover taxes or money claimed as deductions by the contributors to the former SSOC organization, that is, if SSOC actually is denied its status as an exempt organization.

According to the initial report of the Post Office Department and IRS, no audit of the SSOC organization was as a result of some Congressional inquiry.

It may well be that if IRS has actually denied SSOC its tax exempt status and all the efforts made to recover money from the SSOC organization or its past contributors are unsuccessful, a similar technique might be applied to other movement groups and their contributors. Of course, any success in this regard would be dependent on the vigor with which IRS or the Post Office would pursue these individual situations.

As indicated, information concerning the identity of the various known contributors to the SSOC organization, which includes not only individuals but large foundations, and well-meaning liberal sources, has been set out in reports under the SSOC and New Left Movement captions. No new information has been developed concerning contributions to the now defunct organization.

Additionally, the Memphis Office has previously submitted a letter to the Bureau dated 2/17/69 under the SSOC caption, noting that on the part of the (then) salaried SSOC staff workers there were possible violations of the State and Federal income tax laws. It is noted that SSOC, in addition to paying a salary to these individuals, frequently provided housing and board, and occasionally gave particular individuals additional financial assistance such as paying telephone bills and making "loans." It is noted that it is highly probable that those particular individuals had perhaps discriminatory indications of earnings in this money in addition to income in the form of salary when filling their various State and/or Federal income tax forms.

ME 100-4657
ME 100-4701

It is highly possible that a review of the financial activities of other type movement groups might exhibit a similar problem in this regard that may be useful in counterintelligence activities. It is noted that in regard to the SICK situation, according to [redacted] in regard to individual SICK staff workers having omitted declaring a portion of their income, even if this was established, the amount of money that would be recovered would not be large enough to justify the IRS making any great effort to recover any such money.

The above information is being submitted to the Bureau for its information in regard to captioned matters and any possible counterintelligence value.

Memphis will continue to remain alert to the financial aspects of the movement activities within the Memphis Division.

In any event, the administration will be compelled to state its views on one aspect of education policy by the end of the year. Congress has demanded a report by Dec. 31 on the feasibility of a policy making post-high school education available to all young Americans who seek it. Given Allen's views, among others, the administration will likely assign community colleges—serving some 2 million students already—a key role in any such policy.

Nixon Team Feels They're Important

Aid Due for Community Co

By ERIC WENTWORTH
The Washington Post

WASHINGTON — The Nixon administration is drafting a new community college aid plan that could become the showpiece of whatever education proposals the President offers Congress.

U.S. Education Commissioner James E. Allen Jr., outlining the proposed measure in a little-noted speech recently, said it includes grants to the states and to individual two-year colleges.

Still hobbled by inflation, the administration can afford little new spending for this or other programs. Thus, Allen told the National Council of State Directors of Community-Junior Colleges, the proposal will offer mostly "glue money" to repackage existing efforts.

"The intent," he added, "is to redirect funds — much of it now outside the office of Education — to the community college."

Likely outside sources would

JAMES E. ALLEN JR.

include the Labor Department, with its manpower training programs, and the Office of Economic Opportunity.

PIVOTAL ROLE

Beyond what he said about the still-unfinished proposal itself, Allen's speech in Williamsburg, Va., spelled out his

ideas on how the burgeoning two-year schools can play pivotal roles in pursuing what he considers the nation's major education goals.

"One of these goals," he said, "is to make the improvement of education a continuing process." Community colleges offer a smorgasbord of courses, have close ties with local business and industry and draw many students from low-income groups. Thus, in Allen's view, they can serve as centers and clearing-houses for testing new approaches to education and making those that work available to all who might use them.

Because community colleges enroll many low-income and minority students, he continued, they can aid in meeting another goal: Helping the "disadvantaged" overcome educational handicaps. Already, he said, "in virtually every large American city . . . more blacks study at public community colleges than at all nearby institutions combined. A quarter of all black collegians are enrolled in public two-year colleges in New York, Chicago and Los Angeles."

The third goal Allen cited was new and better ways to channel federal aid and other funds for education. "The community college," he said, "is the natural proving ground for experiments in educational financing."

COMBINE PROGRAMS

As Allen described it, a basic thrust of the proposed legislation would be to pull together a host of diverse but related, sometimes overlapping, sometimes competing public and private programs in vocational, technical and academic schooling at the high school as well as post-high school level.

Thus, in proposing grants to states to develop plans for expanded "career education" opportunities, the draft legislation would put a premium of efforts to bring various schooling and training programs into a coherent whole guided by some sort of broad-based coor-

dinating board. Community colleges themselves would be "a stabilizing and correlating mechanism" in such plans.

Similarly, grants to individual colleges for improving courses and teaching would aim at foregoing links with high schools, senior colleges, private industry and federal manpower-training projects. They would also require closing the gap between strictly occupational and general academic programs on campus.

To aid opportunities for the disadvantaged, grants would go only to colleges practicing an "open door" policy for students.

Assuming the proposed legislation gains Budget Bureau blessing, just how and when President Nixon will unveil it remains uncertain.

READYING STATEMENT

Aides inside and outside the White House have been tinkering with a presidential statement on education that could either be wedged into Mr. Nixon's State of the Union address early next year or form the basis of a special message to Congress.

In addition to community college aid, Allen and other administration policymakers are concerned with such other educational priorities as help for city public schools and promoting Allen's "right to read" crusade aimed at wiping out illiteracy. A series of task force reports are being cranked into their deliberations—which are

Drug Called Help In Stroke Cases

DALLAS, Tex. (AP) — A Michigan neurologist has reported that a polymer drug, a blood thinner which reduces clotting, has brought about a statistically significant improvement in survival rates of patients suffering brain damage from strokes.

Dr. John Gilroy, chairman of the Wayne State University department of neurology, told the American Heart Association Saturday that use of the drug must begin within 72 hours after the attack.

In addition to statistically improving the survival rate,

Dr. Gilroy said in his paper the drug reduces damage to mental ability in stroke victims.

He described the drug as Dextrane-40, one of a series of sugars whose molecules are extraordinarily large, and said that, like penicillin, it is manufactured from fermentation of bacteria.

Of a group of 48 patients Dextrane-treated within 24 to 72 hours, Dr. Gilroy said 81 per cent improved, 15 per cent deteriorated or were unchanged and 4 per cent died.

In an untreated group of 54 patients, he said 57 per cent improved, 28 per cent deteriorated or were unchanged and 15 per cent died.

The research was done at Detroit's Harper and General hospitals under sponsorship of the Michigan Heart Association and the National Institute of Neurological Diseases and Stroke.

"Stroke," Dr. Gilroy explained, "is the result of damage to the brain caused by a loss of blood supply, either from a blockage or a break in arteries supplying blood to the brain."

He said care must be exercised in seeing that Dextrane-40 is not used on patients who might have suffered brain hemorrhages.

Trial Set For Two Students

The trial of two students charged with assault and battery in connection with the demonstrations against recruiting by General Electric Co. at Michigan State University has been set for 1:30 p.m. on Jan. 14 in East Lansing Municipal Court.

The two are Susan A. Taylor, 20, an MSU senior from Southfield, and Marshall S. Michaelson, 28, a graduate student at Central Michigan University.

They were among the 15 persons who identified themselves as members of Students for a Democratic Society (SDS) and picketed the Student Services Building last Monday to protest recruiting by GE while 147,000 of its workers are on strike.

Police said the protesters tried to force their way into the office of John D. Shingleton, director of the Student Placement Bureau, but were driven back.

In that incident, one campus police officer sustained a broken hand.

Assault and battery is a misdemeanor which carries a maximum penalty of 90 days in jail, a \$100 fine or both.

Find Body Following Blaze

DETROIT (UPI) — Fire officials today sought to identify the badly charred body of a middle-aged man who was found on the second floor of a near-downtown building gutted by a five alarm fire Sunday.

The body was discovered by firemen lying down near a rag covered table after the blaze in the vacant building was put out. The building had

been gutted by fire.

Some 150 firemen and 30

men with a hotel at the corner of Putnam and M-43, but City Manager Arthur V. Whittington said he would not comment on the problems until the meeting.

Trial Set For Two Students

The trial of two students charged with assault and battery in connection with the demonstrations against recruiting by General Electric Co. at Michigan State University has been set for 1:30 p.m. on Jan. 14 in East Lansing Municipal Court.

The two are Susan A. Taylor, 20, an MSU senior from Southfield, and Marshall S. Michaelson, 28, a graduate student at Central Michigan University.

They were among the 15 persons who identified themselves as members of Students for a Democratic Society (SDS) and picketed the Student Services Building last Monday to protest recruiting by GE while 147,000 of its workers are on strike.

Police said the protesters tried to force their way into the office of John D. Shingleton, director of the Student Placement Bureau, but were driven back.

In that incident, one campus police officer sustained a broken hand.

Assault and battery is a misdemeanor which carries a maximum penalty of 90 days in jail, a \$100 fine or both.

On 11/14/69 draft of article submitted by referenced airtel was discussed with [REDACTED] an excellent contact who has always been of assistance to this office.

[REDACTED] said the article was extremely well prepared, but bemoaned the fact that the October moratorium was no longer newsworthy because of the pending November one. He said had the information been made available to him on October 17 he certainly would have been able to feed it to various press contacts as lead material. At this date his contacts would not be the least bit interested in it. He expressed regret at not being able to assist, and suggested that in any future matters of similar nature the material should be fed to the U. S. Information Agency (USIA) in Washington. USIA should then be requested to send it to pertinent Embassies for the "Wireless File."

PURPOSE:

To recommend that Legal Attaches in London and Tokyo take action to counter false claims by antiwar protestors which indicated majority of Americans actively participated in demonstrations on 10/15/69. //

BACKGROUND:

You will recall that the Communist Party, USA, sent a clandestine message to the Government of North Vietnam giving grossly exaggerated figures of participants in 10/15/69 demonstrations protesting war in Vietnam. Attached is a proposed article indicating that false figures have been used by anti-United States forces and giving realistic figures showing that demonstrators reported were less than 1/400 of the population. //

[REDACTED]

It is understood that an article published in a U.S. newspaper could not be used since it would have little effect upon North Vietnamese. However, if such an article appears in foreign press it would have greater impact. //

DEMONSTRATIONS PROTESTING U.S. PARTICIPATION
IN THE WAR IN VIETNAM

On October 15, 1969, an organization known as the Vietnam Moratorium Committee sponsored nation-wide demonstrations in the U.S. to protest U.S. participation in the war in Vietnam. The predominant theme of these demonstrations was to remove all U.S. troops from Vietnam immediately. Demonstrations occurred in every state and at a majority of the colleges in the U.S. There have been conflicting claims as to the number of individuals who participated in these demonstrations. In view of the fact that these claims vary greatly depending upon the political viewpoint of the individual making them, some analysis is necessary.

To begin with, figures used by individuals involved in the demonstrations and by the committee organizing it appeared to be greatly exaggerated. For example, at Washington, D. C., the figure of 50,000 demonstrators is claimed. Actually, individuals capable of estimating crowd size placed the number at not over 25,000. In addition, at many of the demonstrations it was difficult to separate the demonstrators from spectators in estimating numbers. While absenteeism ran high in colleges and high schools throughout the country, the number of demonstrators on the campuses was relatively small. Obviously many of the students took the opportunity to take the day off as most of the schools excused anyone absent so they could take part in the Moratorium if they desired.

It is also well to note that many of the demonstrators were pacifists based upon their religious belief and had as their objective peace, not the withdrawal of U.S. troops from Vietnam.

Reliable sources in the news media in the U.S. estimate the total number of demonstrators as 500,000, the majority of which were of high school and college age. Inasmuch as the population of the U.S. exceeds 200,000,000, 8,000,000 of which are college students, it is obvious that a very small part of the population took part in these demonstrations. Even utilizing the Vietnam Moratorium Committee's claims of 1,000,000 demonstrators, this would amount to only 1/200 of the population. Utilizing the more reliable estimate of 500,000, it would only amount to 1/400 of the population. Even if the entire 500,000 demonstrators were college students

ENCLOSURE

they would only amount to 1/16 of the youth presently attending colleges in the U.S.

Viewed in this light, it is obvious that the demonstrations were not a mass cry for immediate withdrawal of U.S. troops from Vietnam but rather an indication that some of the individuals who are obviously next in line for military service in Vietnam object to having their lives disrupted by participating in a war which they cannot understand.

SUBJECT: COINTELPRO - NEW LEFT

DATE: 11/10/69

Re Richmond letter to the Bureau, 8/7/69.

Organized New Left activities within the Richmond Division have reached an all-time low in view of the fact that Southern Student Organizing Committee (SSOC) no longer exists in an active form within the division. At present, there is no known active group of Students for a Democratic Society (SDS) within the Richmond Division.

The following is a proposed counterintelligence letter which Richmond proposes to mail to the majority of Southern Movement and Underground Media as listed in SSOC's Spring Handbook, 1969, appearing on Pages 18 and 19. It is felt that distribution to these organizations will best serve the purpose of continuing to foster unrest in the southern portion of the United States with SDS:

"A COLD WIND BLOWS - or MT. BEULAH REVISITED"

"The revolution is not made for the sake of revolution itself - revolutions are made only with the purpose of creating happier men" - Fidel Castro.

"One came away from the Mt. Beulah meeting in Mississippi in June of 1969 feeling everything except happy. As reported at the time, on the last day of the gathering, the P.L. - SDS leaders held another of their innumerable closed caucuses. This was after the vote to dissolve SSOC had been pulled off. This final post-mortem caucus had as its purpose a discussion concerning the tactics used to dissolve SSOC and ways it could have been done better.

Prior to authorizing the mailing of the letter proposed in referenced communication, it is desired that you specifically identify the recipients that would receive the proposed letter. If the list of recipients is extensive, you may xerox the pages containing the list from the SSOC Spring Handbook and submit it as an enclosure to your reply.

In addition, it is suggested that your proposed letter be strengthened to more specifically indict Students for a Democratic Society (SDS) in forcing the demise of SSOC.

NOTE:

By relet, Richmond suggested an anonymous letter be mailed to a list of recipients which would criticize SDS for its part in causing the Southern Student Organizing Committee to disband. Richmond failed to identify the recipients of the proposed letter other than to say they were listed in a SSOC Spring Handbook. The proposed letter does not have a sufficient indictment of SSOC to be effective. This should be strengthened.

"It's ironic that shortly after the Mt. Beulah thing, the very group that so very strenuously pursued and destroyed SSOC has all but destroyed itself. I wonder if they have had a post-mortem on this.

"In an article which appeared in the June 30th issue of 'The Bird', Sue Threasher said 'When you ferret out all the bitterness and extraneous attacks, you're left having to believe that either SDS really believed that SSOC had to be destroyed because it was a liberal organization or that the dissolution was brought about by internal SDS politics'. History has shown all too well that the latter is the correct answer to what caused the destruction of SSOC.

"Too much has been said by too many people who know too little while thinking they know too much about liberals, radicals, and revolution. SSOC acted or attempted to act as the catalyst for social change. The battlefield was its immediate environment - the South. SSOC was an organization that existed to get things we didn't like changed. That was what SSOC was!!

"Society has created the environment for radical, positive change - not to waste time talking about organization, discipline and adherence to narrowly defined versions of ideology as those in SDS and its many internal factions would have you do.

"Just as it did after the Civil War, the cold wind of destruction has blown over the South and Mt. Beulah and destroyed that which was good and that which was doing something to change what it did not like. SSOC is dead - just as those who died in the Civil War are dead. It's a shame that the impetus behind the death of SSOC was SDS's internal politics.

"Since Mt. Beulah, nothing has grown or come forward to replace SSOC. The destroyer, SDS, has gone off on its many varied ways of self-destruction, arguing within itself over the theories of the movement."

RH 100-10658

Richmond proposes to mail this letter to the above-mentioned groups, if approved by the Bureau, above the [REDACTED] of JAMES LEE JACKSON, which is the pen name of [REDACTED] who has written other articles lamenting the demise of SSOC by SDS.

Contact with agents familiar with the activities of the BPP reflects that at the present time Baltimore does not have an informant in the BPP chapter in Baltimore.

ReLAirtel 10/23/69.

Referenced airtel states that the New Mobilization Committee (NMC) has decided to purge the Socialist Workers Party (SWP) and the Young Socialist Alliance (YSA) from the antiwar demonstration to be held in San Francisco on 11/15/69 and that all affiliation with the SWP and the YSA is to be dissolved.

This situation seems to afford an excellent opportunity to drive a wedge between the SWP and the peace groups in the Los Angeles area.

Consistent with the security of your sources, you should prepare an anonymous communication criticizing the action taken by NMC in freezing the SWP and YSA out of the forthcoming demonstration.

Forward a copy of this communication to the Bureau along with your recommendations as to the groups and individuals who should receive it. In addition, you should consider furnishing this information to appropriate cooperative news representatives. Take no action in this respect without first obtaining Bureau authority.

STUDENT MOBILIZATION COMMITTEE
TO END THE WAR IN VIETNAM (SMC)
INTERNAL SECURITY - SOCIALIST WORKERS PARTY

This is to recommend distribution to cooperative news media information concerning background of captioned group.

SMC has called a national student strike on 11/14/69 as a build-up for the major antiwar demonstration planned for Washington, D. C., on 11/15/69. Three national officers of SMC, Carol Lipman, Danny Rosenthal and Don Gurewitz are presently in Washington, D. C., area organizing SMC chapters and support for the above-mentioned activities.

SMC is completely dominated and controlled by the Young Socialist Alliance (YSA) the youth affiliate of the Socialist Workers Party (SWP). Lipman, Rosenthal and Gurewitz are all Security Index subjects based upon their SWP and YSA membership. Rosenthal is a full-time YSA National Organizer. In 1968 Lipman was editor of "Young Socialist," monthly publication of YSA.

It is felt friendly news media contacts could well use background on the principal SMC activists particularly highlighting their past activities and association with the SWP, a Trotskyist communist group which has been cited by the Attorney General.

STUDENT MOBILIZATION COMMITTEE¹
TO END THE WAR IN VIETNAM (SMC)¹ - [REDACTED]

At a recent press conference in Washington, D. C., leaders of the SMC announced a "No Peace for Nixon Campaign," promising demonstrations across the country at every public appearance of the President.

The SMC has called for a "national student strike" on November 14, 1969, to "show there is massive student solidarity against the war." This action is planned as a build-up to a major antiwar demonstration planned for November 15, 1969, in Washington, D. C., by the New Mobilization Committee to End the War in Vietnam (NMWC), a coalition of protest groups from throughout the United States.

At the above-mentioned press conference, SMC representatives boastfully, and undoubtedly with exaggeration, estimated there are 1,000 local branches of SMC throughout the Nation.

Local colleges, universities and high schools are being subjected to organizing campaigns by SMC. Some school administrators have even provided time and space for meetings. These campaigns are centered on "freedom of speech and expression" and sold as an extension of the "public discontent" with the policies of the present administration toward the war in Vietnam.

Many students, and their parents, question the activities and motives of SMC but find it difficult to combat the glib assertions of the organizers. Perhaps a look at the background of some of the principal SMC activists appearing locally would prove helpful. Carol Lipman and Danny Heitner from New York City and Don Gorewitz from Cleveland are presently in the Washington, D. C., area specifically to organize SMC activities.

ENCLOSURE

**Student Mobilization Committee
to End the War in Vietnam (SMC)**

Carol Lipman, aged 24, is National Executive Secretary of SMC, which has its national headquarters in New York City. Local offices are maintained at 1029 Vermont Avenue, N. W. During 1963 she served as editor of "Young Socialist," a monthly publication of the Young Socialist Alliance (YSA). The YSA is the youth affiliate of the Socialist Workers Party, a Trotskyist communist splinter group which has been cited as subversive by the Attorney General. She has worked for YSA in Boston, Chicago, Detroit and New York City before coming to Washington, D. C. Having held national officer positions with YSA, she would also be a member of the parent Socialist Workers Party (SWP).

Danay Rosenshine, aged 24, has likewise been active for several years with YSA in Detroit, Cleveland and New York City before coming to Washington, D. C. He presently serves on a full-time basis as YSA National Organizer, having previously been National Field Secretary. He travelled to Cuba in 1960 with a group sponsored by the Fair Play for Cuba Committee. In 1963 he attended the Soviet-dominated Eighth World Youth Festival in Helsinki, Finland, and subsequently toured the Soviet Union. In early 1963 he returned from spending several weeks in Cuba. "The Militant," published by SWP, issue of 3/21/63, carried an article captioned "40 Campus Dates Set for Speaker on Cuba" listing speaking engagements arranged for Rosenshine. His speeches predictably praised the Cuban brand of communism as practiced under Fidel Castro and at the same time condemned the United States Government. In late 1963 he was on a speaking tour of New Jersey, New York and Connecticut, also advertised in "The Militant." His topic at that time was "From Student Revolt to Socialist Revolution."

Don Gurewitz grew up in the Washington, D. C., area but has been residing in the Cleveland area attending school in recent years. He has been active in the civil rights movement, served as leader of SMC in Cleveland and also participated in audits of YSA and SWP. In addition to serving as a national organizer for SMC in the recruiting campaign in the Washington area, Gurewitz is also serving on the Washington Action Committee of RNC coordinating the demonstration on 11/15/68.

Student Mobilization Committee
to End the War in Vietnam (SMC)

— All prominent SMC leaders have a similar background of activities and membership in YSA and SWP.

Lipman, Rosenshine and Gurwitz have all written articles for "The Militant" and "Young Socialist." Both Rosenshine and Lipman have served on the editorial board of "Young Socialist." The September, 1969, issue of "Young Socialist" contains a lengthy article entitled "YSA Program for the Campus Revolt," proclaimed as a statement of the National Executive Committee of YSA. A poster-type centerfold contains a likeness of "Che" Guevara and the slogan "Smash Capitalism." Other articles include "Where Is America Going?" by Ernest Mandel, a leading European Trotskyist revolutionary who spoke at dozens of United States college campuses on a tour last Fall.

The June 27, 1969, issue of "The Militant" contains an article by Charles Folduc, National Chairman, YSA, entitled "Why Revolutionaries Belong in YSA." This article makes the point that YSA supports the Cuban revolution; the struggle for socialist democracy in Eastern Europe; the antiwar movement; the black liberation struggle and the revolutionary nature of black nationalism; and holds the perspective of a working-class revolution for socialism in the United States and other advanced capitalist countries.

"The Militant" regularly carries recruiting ads for YSA under such headings as "Fan the Flames of Discontent--Join YSA."

Consideration of the above raises several questions. Is SMC promoting political dissent and protest, or revolution? Is the action proposed and organized by SMC an affirmation of the political system of this Nation, or designed to further the aims and objectives of those who would destroy this Nation from without and within? Should the activities be condemned as legitimate expression of the attitudes of the youth of this country, or condemned as the workings of a disciplined cadre of revolutionaries seeking to deceive American youth? Is SMC controlled as it obviously is by YSA, seeking merely to exercise freedom of political expression, or is SMC actually seeking to destroy the political system?

Students, parents and faculty at our local schools should answer for themselves the above questions before endorsing or countenancing the activities of SMC.

Re Chicago letter to the Bureau dated 6/30/69.

1. Potential Counterintelligence Activity

The events in Chicago during the Students for a Democratic Society (SDS) "National Action" from October 8 - 11, 1969 and with extensive wide spread publicity unfavorable to the Weatherman faction of SDS has created a potential activity for counterintelligence activity. Chicago is evaluating this faction and as soon as an analysis can be completed an appropriate program of counterintelligence activity to exibit this unfavorable image will be submitted to the Bureau.

2. Pending Counterintelligence Activity

Chicago prepared an article outlining the plans of both the Weatherman and the Revolutionary Youth Movement II (RYM II) factions of SDS for the universities during the coming year.. This was submitted with the idea that it could be widely circulated among the school administrators to alert them to the attitudes of SDS. To date no reply has been received concerning this recommendation.

3. Tangible Results

Pursuant to Bureau authority, Chicago directed sources in SDS and in the BPP to emphasize the difference between the organizations and foment discontent. The Weatherman faction has recently been denounced by the Black Panther Party do to their tactics in the recent Chicago disturbance. It is believed that the agitation of sources may be partially responsible for this split. The BPP is still aligned with the RYM II faction and sources are continuing aggravating minor differences between these two groups.

INTERNAL SECURITY

Re Cleveland letter to Bureau, 8-1-69.

The following is a resume of activity conducted under captioned program during the period August 1, 1969, through September 30, 1969:

1. POTENTIAL COUNTERINTELLIGENCE ACTION

The current situation within the Ohio Region of Students For A Democratic Society (SDS), both from an ideological as well as an activist viewpoint, is somewhat muddled. Although the Regional Staff and most of the activists appear to be solidly attached to the Weatherman faction, there have been numerous instances in which Weatherman people have been "purged" for a variety of reasons. During the Summer Work-In Program, the Ohio leadership projected a militant and dictatorial attitude and a goodly number of persons who began the program in late June, 1969 found themselves expelled from SDS during the course of the summer. The Ohio leadership has since apparently realized that they acted foolishly in many such instances and thereby effectively reduced the base of their hard-core support. As a result they have made some effort to re-enlist the loyalties of the expelled group, particularly to obtain their support for the forthcoming Chicago demonstrations. On the other hand, many of those who have been purged, as well as many who were in SDS during the Spring of 1969 but did not participate in the Summer Work-In Program, have drifted toward other factional elements within the New Left Movement. As examples of this tendency, there are some minor indications that PLP has undertaken organizational efforts in the Toledo, Ohio, area and some remnants of the highly militant SDS group at Kent State University, Kent, Ohio, have indicated a preference for the RYM II position as opposed to the Weatherman faction.

The Cleveland Office is currently conducting an extensive survey of informants and sources in all colleges and universities

1 - Bureau(RM)
2 - Cleveland

within this Division. In most instances the academic year has just begun and SDS organizational efforts have not produced concrete results. In addition, the Ohio leadership is obviously concentrating upon rallying support for the Chicago demonstration and thus campus organization has not yet been heavily emphasized. Cleveland is closely following this matter and the Bureau will be advised of the factional line-up among SDS chapters in this area as soon as the situation becomes more clarified. In the event SDS factions other than Weatherman are able to obtain any type of substantial campus base, it may be possible to exploit the ideological differences among the groups in a manner conducive to minimizing the over-all influence of SDS in this area. At such time as sufficient data becomes available upon which logical programs can be projected, Cleveland will submit appropriate recommendations to the Bureau.

2. PENDING COUNTERINTELLIGENCE ACTION

The matter of [REDACTED] (Key Activist) income tax review by Internal Revenue Service is still pending. On September 28, 1969, IRS [REDACTED] advised that it is his understanding that the IRS investigative staff has completed its investigation concerning [REDACTED] returns. He stated he would check the pertinent records in this regard and advise this office of the results of the IRS investigation though as of the close of business on September 30, 1969, [REDACTED] had not furnished further information concerning the [REDACTED] case. Immediately upon receipt of the results of the IRS investigation, the Bureau will be advised.

3. TANGIBLE RESULTS

The SDS held a Mid-West Regional Conference in Cleveland, Ohio, on August 29, 1969 to September 1, 1969. Just prior to the beginning of this conference representatives of the Cleveland Office accompanied [REDACTED] to TV Station WJW where [REDACTED] was to record radio and TV tapes concerning the New Left. Representatives of the station were most cordial and expressed a vital interest in providing the public an informative view of the aims and purposes of SDS. Knowing that MARK RUDD would be in Cleveland for the Regional Conference and knowing RUDD's propensity for making appearances

CV 100-28895

before the mass media, [REDACTED] informed Mr. CHARLES BERGESON, Station Manager, that the conference would be held in Cleveland and that, in all probability, RUDD could be obtained for an interview. On August 30, 1969, Station WJW sent a reporter and camera crew to the East Cleveland Congregational Church where the conference was in session. Although all news media were uniformly excluded from the conference, the WJW reporter approached a group of conference participants and requested an interview. These persons refused to talk with the reporter but stated they would bring an SDS spokesman to the reporter. Shortly thereafter MARK RUDD, [REDACTED] and [REDACTED] came out and RUDD consented to an interview in which [REDACTED] and [REDACTED] also participated. During this interview the SDS trio exhibited an insolent, arrogant attitude and openly proclaimed their communistic philosophy and intent to "smash" the United States Government. A portion of this filmed interview was aired over WJW - TV and arrangements have been made for retention of the entire film for evidentiary purposes. It is to be noted that this interview "turned on" the Cleveland viewing public to the insidious nature of SDS in a manner and to a degree that numerous campus demonstrations in the past have failed to accomplish. Both the TV station and the Cleveland Office received numerous calls concerning RUDD's statements indicating alarm and concern over the fact that SDS has such revolutionary aims and indicating surprise that what they had considered to be a "student" group could produce such hard-core militants. It appears clear that RUDD's statements have served to alarm and alert citizens of this area and have convinced many who were formerly indifferent to the problem posed by the SDS.

As noted under Section 2 above, the Cleveland Office has taken no direct action relative to the recommendations submitted in Cleveland letter of August 29, 1969. It is noted, however, that on September 11, 1969, the Cleveland Area Peace/Action Council (CAPAC) held a press conference as a preliminary to a CAPAC conference on September 13, 1969, concerning the Washington demonstrations planned for November 15, 1969. At this press conference JERRY GORDON, former CP member and current chairman of CAPAC, presided with the assistance of [REDACTED]

was asked if he is now or has ever been a member of the CP; whether or not it was true that a Negro group in Washington, D. C. was demanding a large payment of money from the New Mobilization Committee for the privilege of holding the November 15, 1969, demonstration in Washington; and whether CAPAC and the New Mobilization Committee were cooperating with SDS in their openly stated plans for a violent demonstration in Chicago on October 8 - 11, 1969. Due to their efforts to answer these questions, which resulted in a substantial amount of double-talk clearly obvious to the other newsmen present, [REDACTED] and GORDON were unable to put across any message regarding the war in Vietnam, the draft or the Washington demonstrations other than that contained in their brief opening statements. Finally, [REDACTED] both GORDON and [REDACTED] became so exasperated at this unhappy turn of events that they abruptly ended the news conference and walked out.

[REDACTED]

[REDACTED] stated that it was obvious the plans of GORDON and [REDACTED] had met a setback, not only because of the fact that so much of the news conference time had been spent in attempting to defend their backgrounds and motives, but because it became obvious to the other newsmen present that both were circumventing the issues involved in the questions [REDACTED]

Dear Sir:

The racial situation in Virginia has been relatively quiet as compared to localities elsewhere. This speaks well for Virginians; however, we have individuals residing in the State who, I feel, have been a source of trouble in the Black communities.

A classic example of such a person is [REDACTED] Macro school. He [REDACTED]

[REDACTED] also located in Norfolk.

Perhaps you are not mindful of the fact, both [REDACTED], before coming to Norfolk, had an extensive history of Communist Party activity in Baltimore and elsewhere. During his residency in Maryland, [REDACTED] was closely associated with [REDACTED] a Communist leader in Maryland at the time. I am alerting you to this man because [REDACTED] is a state-supported institution and because of the prospect of increased trouble on the college campuses over the Nation this fall.

I have had misgivings about writing this, but after considering the possible harm a person in his position could do, I felt it was my patriotic duty to expose [REDACTED] as the man he was and as the person he really is today.

A person who promoted Communism at one stage in his life is no fit person to teach Democracy to college students.

..... It is noted the University of Utah Chapter of SDS has been a small, inactive group during the past school term with from eight to ten members in attendance at SDS meetings. The objective of this letter is to prevent [REDACTED] from being accepted by the SDS Chapter since it is felt his acceptance and leadership toward SDS causes would be a great gain for the local SDS Chapter. [REDACTED] has been a [REDACTED] school leader on the University of Utah campus and [REDACTED] and would, therefore, be an attractive gain for the SDS Chapter. It is felt that SDS may attract other students of [REDACTED] stature if he is active on behalf of SDS.

June,

OTC

I read in the newspaper that [REDACTED] quit his post as a member of the US Organization Board and plans to become a member of SDS.

Since I am in sympathetic with the SDS cause, I am writing this letter to warn you to steer clear of [REDACTED] because he is working for the Reds against SDS. I know this to be true since I have observed [REDACTED] talking to the [REDACTED] and another friend concerned my belief.

Hang in there,

A friend.

Reurlet 9/17/69.

Prior to authorizing any action along the lines suggested in relet, it is desired that the Bureau be furnished with the complete background of the Exploring Family School with all information in your possession substantiating the fact that it is being established to train children in anti-Government activity. If sufficient evidence of this exists, you should also advise as to whether there are cooperative and reliable sources in your area, both in the news media and in the school administration, who could take action to prevent the establishment of such a school.

Before taking any active measures, however, Bureau authority is to be obtained.

NOTE:

San Diego has suggested that efforts be made by that office to plant misinformation that would frustrate efforts of the Exploring Family School to develop. San Diego described the School as noted above. If sufficient evidence exists that this School is anti-Government, we may be able to furnish this to sources who can take steps to see that it is not successfully established or accredited.

SUBJECT: SAC, SAN DIEGO (100-14259(p))

COINTELPRO

Enclosed for the Bureau are one copy of pamphlet entitled EXPLORING FAMILY SCHOOL and a questionnaire by the SAN DIEGO DRAFT COLLEGE.

WT 6374 SD
W 7/2/69
The Exploring Family School is a new elementary school for children, age five to ten years, being established by a group of individuals involved in anti-draft activity in San Diego. SD 1179-R has advised that the purpose of the school is to train children at an early age to be interested in anti-government activity. They intend to make the school a full time accredited school.

Bureau authority is requested to allow San Diego to make an occasional telephone call to Message Information Center volunteering to give some item in which the school would have an interest. A false address and telephone number will be given in an effort to cause the persons involved to attempt to pick up items promised at a vacant lot.

In addition to the above, the San Diego Office requests authority to prepare numerous copies of the questionnaire for the San Diego Draft College promising various items and services in order to make it impossible for the Draft College to determine which are legitimate promises of help and which are not. These forms will be filled out in ink, pencil, and typewriter in order to vary the form and make it appear they are from different people.

San Diego is unable to get a number of these forms and it is not possible to reproduce them by Xerox because the printing on the back bleeds through. It is believed that using Xeroxed forms would only work for the first few forms and then the persons receiving the Xeroxed forms would know they were not legitimate.

If possible, the Bureau is requested to have printed 100 forms as much like the San Diego Draft College form as possible. The original form should be returned to San Diego for their file.

San Diego has furnished information concerning the [REDACTED] Exploring Family School to [REDACTED]

[REDACTED] San Diego, California, who has indicated that he will attempt to open an investigation on the school in order to keep the school from being accredited in view of its actual purpose.

Then we need WORK PARTIES:

[REDACTED] has rented us his three-acre farm with a two-bedroom house for the cost of his expenses, \$85/month. This bounty however requires our labor in turning it into a school - junk to be removed from a long shed, roofing materials for same shed to be provided and applied, a space to store about 9, 573 of [REDACTED] books to be found and used, the grounds cleaned up, and the house scrubbed. We estimate 10 men working a long hard day (or 20 men an enjoyable day) could clean up the place beautifully, with proper tools and use of a truck for hauling. To volunteer for the creation of a free school, call MIC and leave a message for [REDACTED] (We have temporary quarters for the first weeks, but this needs to be done by the end of September- choose your day soon).

Then, of course, we need money. Among other things, like rent and supplies and transportation, this gives our two full-time credentialed (and thus very legal) teachers some guarantee that they will be able to pay rent and eat. In this likely event you have no extra money (strange concept that that is), perchance you know someone intrigued by the idea of a free school who would like to make it a regular monthly contribution (suggest \$10, \$25, and up). Mail checks to Family Exploring School, c/o 1360 Dale Street, San Diego 92102.

If you have talents to volunteer to the school learning environment (jargon for if you want to turn kids on to something you dig), let [REDACTED] or [REDACTED] (through MIC of course) know when you would find it most convenient to come to the school or have the school or some part of it come to you.

If you have too many ideas to leave in a MIC message, come to the school meeting Monday night at 7:30 at 1360 Dale (between 29th and 30th on the corner of Ash Street).

Peace,

Free School Partisan

EXPLORING FAMILY SCHOOL

Dear People,

The free elementary school is a part of a community dream for humanized education reaching from pre-school through university. However, when the dream becomes concrete, as in the case of the Exploring Family School (named by the children in the summer session), there is a sudden need for the community to work together as well as dream together.

Our needs are such that everyone could help make this school a place where the idea of self-determined learning becomes real.

First of all, we need THINGS:

(If you can contribute these or others you think of, bring them to 4230 Maryland St. or to 1360 Dale St. or call MIC and leave a message for [REDACTED] to pick them up from wherever they are)

Dr. Woodrow W. Wilkerson
Superintendent of Public Instruction
State Department of Education
9th Street Office Building
Richmond, Virginia

Dear Sir:

The racial situation in Virginia has been relatively quiet as compared to localities elsewhere. This speaks well for Virginians; however, we have individuals residing in the State who, I feel, have been a source of trouble in the Black communities.

A classic example of such a person is [REDACTED] Macro school. He [REDACTED]

[REDACTED] also located in Norfolk.

Perhaps you are not mindful of the fact, both [REDACTED], before coming to Norfolk, had an extensive history of Communist Party activity in Baltimore and elsewhere. During his residency in Maryland, [REDACTED] was closely associated with [REDACTED] a Communist leader in Maryland at the time. I am alerting you to this man because [REDACTED] is a state-supported institution and because of the prospect of increased trouble on the college campuses over the Nation this fall.

I have had misgivings about writing this, but after considering the possible harm a person in his position could do, I felt it was my patriotic duty to expose [REDACTED] as the man he was and as the person he really is today.

A person who promoted Communism at one stage in his life is no fit person to teach Democracy to college students.
